

MEBLE *Wojtek*

Everyone dreams of a unique, homely interior. A space where it is a pleasure to spend time in and relax in. Beautiful, cosy, arranged in a style that makes us feel good. A style that reflects how we live and what we need. How do you find it and choose the one that suits you best? How do you create your own style and furnish your home based on it?

Just as you like!

In Meble Wójcik we know that the element that affects the final appearance of a home is furniture. They create the interior, which is why we focused on diversity and the highest quality when designing each collection. We want everyone to find something for themselves in our offer. Furniture that will perfectly match both traditional and modern arrangements, as well as smaller or larger rooms.

If you are looking for an idea for your interior and you expect your furniture to be not only interesting in terms of design but also functional, please see our catalogue and take a look at our collections. For more interior design inspiration and advice on interior design styles, please visit our website www.meblewojcik.pl on our social media and on the blog „How to furnish and not go crazy”.

bold design

Such an association may come to mind when we look at the extraordinary sideboard from the Alverno collection. In addition to its functionality, one cannot deny its extraordinary originality, which makes the room look modern and designer. Delicate grooves are an interesting digital print, combined with a neutral, ash color and minimalist handles create a unique set. Sophisticated and light – simply Alverno :-)

modern and stylish

The Brolo collection is the essence of modernity thanks to the innovative material used in the fronts of individual pieces. The MDF board is mass dyed and covered with gloss white foil and then milled in geometric shapes to expose the black inside of the board. This unique effect looks warmer thanks to the beautiful wooden colour of the body, resulting in a very designer look.

nostalgically...

Most of us well remember the rocking, bent armchairs with rattan seat from the communist era. Today, it is a design classic that is making a triumphant return, just like the material itself, rattan. The Cestino collection draws on this trend but in a modern and stylish version. Furniture fronts with a print imitating rattan is a practical solution, easy to clean and at the same time create a slightly nostalgic atmosphere for a classic dining room or living room

traditional and timeless

The warm oak colour, metal, rustic handles, and the large construction of the fronts resemble classic wooden furniture. The glazed sides of the vitrines, which can also be backlit, break with tradition and make the sturdy units visually more delicate. The pleasure of using the furniture is increased by the soft-close mechanism of the drawers and fronts.

warm and cosy

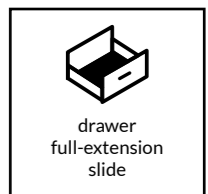

Interior design trends come and go. But there's something that never changes – simple shapes and natural wood. Spaces furnished with pieces from the Fribo collection feel wonderful thanks to the warm shade of Golden Ribbeck Oak. The distinctive features of the programme include lightly textured, smooth fronts, full-extension slide drawers, and a handleless system. Fans of minimalism will love the collection in white.

it can't get any whiter :)

White furniture has been the most popular living room option for years. So we've decided to present a new, white version of the iconic Lyon collection that thanks to its asymmetric shape and unique backlighting has rapidly gained masses of fans not only in Poland. In the white version with gloss fronts Lyon looks extremely stylish. The minimalist colours and interesting shapes of individual units make Lyon suit various styles depending on the accessories you choose.

LYON WHITE

all-out gloss

Glossy fronts are a definite hit for small interiors. White glossy surfaces reflect light perfectly, making the room seem bigger. Keeping it clean, contrary to appearances, isn't a huge challenge - wiping it with a moist towel is enough.

a great atmosphere

A unique feature of the Lyon collection is the warm LED backlighting of the top panels and sides of each piece (available in the set). Thanks to this, by combining several elements of the collection, you can create a romantic atmosphere in the living room or dining room, which will make time spent together with family and friends more pleasant.

convenient use

The charming combination of white gloss fronts with the warm colour of Oak Riviera is not the only asset of the collection. It's also worth noting the soft-close runners and hinges, as well as the laminated board used on the tops that has increased resistance to scratching and high temperatures..

what about the shine?

The era of matt fronts - deep, elegant and at the same time practical - is starting now. No more visible fingerprints! The Novi collection uses high quality mdf fronts in white which are beautifully decorated with ribbed slats. What else is worth mentioning? Fully extendable drawers and a synchronous slide in the table makes it practical and easy to use. Some more pastel accessories and you are ready to go!

synchronous structure

The latest technology in the production of wood-based boards now allows for perfect reproduction of the wood grain on the board surface, which you can feel when you run your hand across the top of a table or chest of drawers. You see the wood and feel the wood to the touch... but not in the price :-)

feel it under your fingers

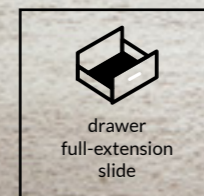

A colour that captivates and a form reminiscent of a rustic style, but in an original and more characterful version - this is the Perazzo collection. Large and massive shapes, beautiful wood decor with a synchronous structure (it's worth touching the collection's countertops to check this effect!) and metal handles - the whole gives a sense of solidity and durability of the furniture. This will definitely be appreciated by quality enthusiasts.

many possibilities

The name of the collection itself invites you to have fun - play with furnishing. It's child's play, because the shapes are easy to combine, creating original sets for the living room, youth room, office corner or studio apartment. A universal collection with an extremely fashionable groove motif - here in the form of a digital print that closely resembles wooden slats. However, when it comes time to clean dust from the furniture, the flat front will certainly gain admirers.

a bright alternative

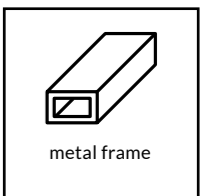

Not all of us are fans of white furniture, but would still like to have a bright, modern and, above all, 'light' interior. It is not easy to find an alternative - our suggestion is the Rivero collection in shades of beige, grey and wood.

asymmetrically combined

There are many furniture variations of this popular combination of white and wood decor. Why? Because this combo simply works in interiors. White brightens up and brings a modern feel to the room, while the wood pattern adds cosiness and warmth. In our edition, this combination is emphasised with a black accent, which runs asymmetrically along one side of the furniture. Do you also get the impression that a piece of wood is 'sticking out' of a white furniture? wooden?!

sturdy pieces

The natural shade of wood with a trendy horizontal grain contrasts the graphite recesses perfectly. The simplicity of the furniture, enclosed in a large body made of laminated board, means that furniture from the Shetland collection will always look great and work well in almost any arrangement - from loft apartments to warm, cosy interiors. If you get bored with the current colour, all you have to do is change the accessories or paint the walls - the choice is yours.

strong accents

The expressive wood grain is highlighted using contrasting milling that serves as handles. The eye is drawn to the wide, horizontal strips adjacent to the sturdy MDF fronts. It's hard to believe that even with such strong accents, the pieces from the Summer collection seem light and compact. You'll be able to arrange them even in a small space without a problem.

Water Repellent Fabric

It's covered with a special protective layer, creating a hydrophobic coating to protect against quick liquid absorption. It prevents the fabric from immediately absorbing water, leaving the liquid condensed on the surface of the material. This gives you time to gently wipe up the spilled liquid using a soft cloth or paper towel.

PetProof Fabric

Fabrics bearing the PetProof mark show increased resistance to pulling out threads created from pet claws. They have a fine weave and smooth surface so that hair does not stick to the fabric and is easily removed with a clothes roller or damp cloth.

FRIBO WHITE

a home office in style

A home office in the bedroom requires a thoughtful arrangement that makes work a pleasure while blending in with the rest of the interior. Sound like a challenge? In the Fribo collection you'll find both a desk and a bed in three sizes, so you can easily keep the space cohesive.

LINATE

are you looking for functional elegance?

The Linate collection meets the expectations of our customers, creating pieces that will provide a beautiful bedroom space, at the same time surprising you with its functionality. Discover different sizes, roomy wardrobes with mirrors, where you check how you look when trying on clothes or getting ready to go out, and a bed with a comfortable, raisable frame.

comfort use

It is worth noting the comfortable and pleasant-to-touch headrest, which is made of non-absorbent fabric. This element definitely adds to the comfort of the bed, and contrasts perfectly with the white of the other pieces.

LYON BRIGHT

the perfect bedroom

Pleasant mornings and perfect evenings every day? We have a recipe for it! White furniture and wooden decor from the Lyon Light collection is a timeless combination that will suit any interior design. Pay attention to the bed, too. The lift frame provides plenty of extra storage space and the upholstered headboard will always shine clean. The fabric has an innovative Easy Water Cleaning finish to easily remove stains and Water Repellent to make it harder to absorb liquid dirt.

MONACO

functional and classy

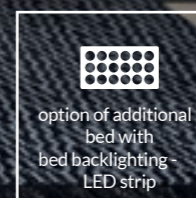

An upholstered bed headboard, a capacious wardrobe with an illuminated bar and mirror, and functional bedside tables - all this will make the Monaco collection fulfil even your wildest expectations for your desired bedroom. Deep black will steal the hearts of lovers of original design trends, referring in its simple form to the highest class and elegance.

an alternative solution

The bed has a fully extendable drawer, which is an interesting idea. It's the perfect alternative to a bunk bed. The drawer on wheels provides additional sleeping space if you ever need it (it fits a 190x80cm mat-tress)! And, if you don't see the need, you can always use it as a practical and generous storage compartment.

one piece of furniture - many possibilities

So you can't decide how to finish decorating a child's room? Are you constantly changing your mind, looking for a neutral furniture colour that will suit everything? Angel is the perfect collection for you thanks to the stylish White Craft Oak colour inspired by whitewashed wood, which is perfect for all types of arrangements, regardless of the child's age. Our range even includes a baby cot with an adjustable mattress level.

neutral basis

This is exactly the function of the Denim collection in the children's room. Depending on the choice of the wall and floor colors, the furniture will fit perfectly into the room design for both boys and girls, preschoolers and teenagers. A quick change of accessories and the interior gains a second life. The eye-catching elements are the fronts with a delicate grid that blends perfectly with the light shade and the leather handle.

duo of white and grey

Flexi is a youth collection in versatile colours that'll look great in a child's room. The gently contrasting combination of colours and horizontal grooves on the fronts create an interesting union and highlight the aesthetics of the furniture. Another benefit is the rounded fronts and bodies, which make the collection not only look light, but be convenient. The Flexi collection is handleless, which further highlights its modernity and functionality.

in a teenager's kingdom

A natural wood theme, simple fronts and texture that's pleasant to the touch and can be felt with your fingers - Fribo furniture is a great solution for a teenager's room. Scandinavian, Boho or Japandi? The versatile Fribo pieces will suit all of these trends. The collection includes a wardrobe, desk, bookcase and bed with a slideout drawer that can be used as an additional sleeping space.

white is always safe

Who says a baby's room has to be multicolored? Well, that's just the way it is - there are dozens of toys, colourful books, markers, teddy bears, etc. There is a lot going on so sometimes it makes sense to „calm down" this colorful dizziness with a secure, neutral base. Novi collection will surely survive the challenges of changing tastes - matt fronts are perfect for walls in delicate pastel colours as well as for bold, saturated colours and decorations.

interior with character

Recycling wood is a fashionable trend. It will work especially well in a teenager room, whose owner wants to stand out. Tidiness it's not a priority in his head! Hence, spacious drawers and under-bed recesses that provide storage for various objects. What's more, there are no finger-prints on the decor, which resembles raw wooden boards. The „wow“ effect will be achieved by a LED lighting panel above the bed with a touch switch.

this can't go wrong

Each combination of shapes is a hit - thanks to the interesting geometric form, high, straight legs and minimalist handles that vanish and do not disturb the form of the furniture - you can flawlessly create various furniture arrangements that will fit perfectly into any interior and any style. A fashionable digital print imitating wooden slats fits perfectly with the white and color of the wood, creating an interesting and unpretentious mix.

for those 'more grown-up'

Teenager's room, bachelor's room, studio - if you need roomy units that store a lot, the Twenty collection is for you. The colour scheme of the furniture is a great match for the entire colour palette and the simple form adds a modern touch to the interior. However, if we want to warm up our space, it is good to enhance the collection with natural elements, such as wicker baskets or knitted containers and organisers, especially as the spaces between the shelves are ideal for this.

Overview lighting

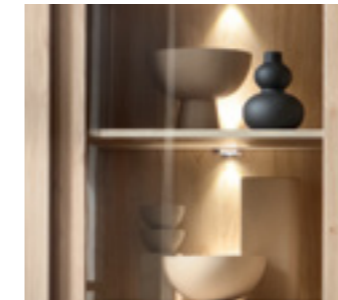

To illuminate the shelves you can use Led Clips, Dojo 2D, Dojo 3D, Square, Quatro or Prismatic. Check the manufacturer's recommendations in the description of each collection at the end of the catalogue.

LED CLIPS

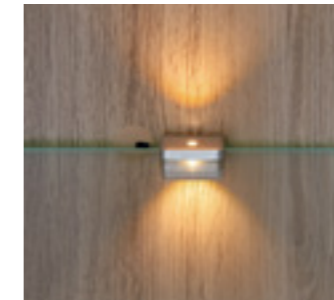

Led Clips - a small Led fixture designed to illuminate glass between 5 and 8mm thick. Applied to a glass shelf with a frosted edge, it allows the effect of a glowing glass edge to be achieved.

DOJO 2D

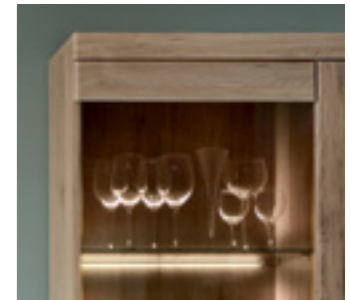

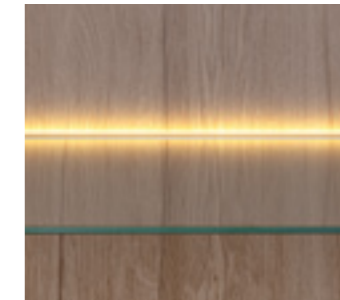

The Dojo 2D luminaire is a clip-on light point mounted on a slab shelf. The light beam is emitted upwards and downwards.

DOJO 3D

The Dojo 3D luminaire is a clip-mounted light point behind the glass shelf of a piece of furniture. The light beam illuminates the front edge of the shelves and is also emitted upwards and downwards.

PRISMATIC

The Prismatic luminaire is a striking way of illuminating the inside of a display case using a metal cap with a pasted-on Led strip.

SQUARE

Square and Quatro luminaires are excellent options for furniture lighting for display cabinets. They have small dimensions and are very easy to install. They can be purchased in ready-made sets with power supply and switch.

QUATRO

LAMPKA BUTTERFLY

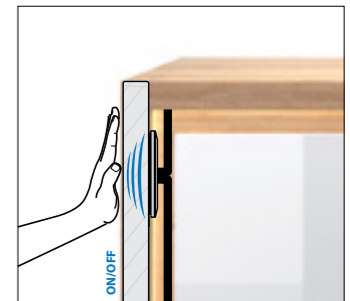

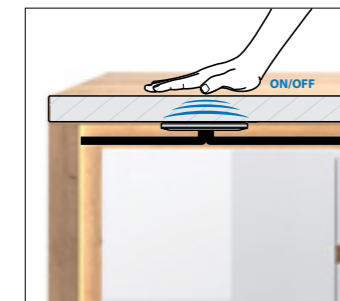

It has a long, flexible extension arm so that you can fit it to your bed, shelves or desk. The light source is Led (cold colour). Kits containing 1 or 2 lights with power supply and necessary wiring are available as an option.

LAMPKA FLEXI

It has a modern and minimalist shape and a built-in USB input. You can mount it to your bed, desk or shelves. Optionally, kits containing 1 or 2 Led lamps (neutral colour) with power supply and necessary wiring are available.

TOUCH LIGHT SWITCH

You mount it internally to the body of the furniture (under the top or to the side), so the lighting can be switched on/off quickly and conveniently by simply touching the desired spot on the furniture. You don't need coils of cables wriggling around on the floor. Check out how easy it is!
